WEDNESDAY, Sept. 8. To-day's stock market reflected a growing appreciation on the part of dealers and investors in securities of the extraordinary period of prosperity that the transportation industry of this country is about to enjoy. The sentiment referred to was most forcibly expressed in Atch-ison preferred and Illinois Central. The movement in the first named was based ostensibly upon the declaration of 3 ? cent, interest upor the adjustment bonds of the Atchison Company for the year ending June 30 last. There are other the unusual activity in Atchison preferred at a net advance of 119 9 cent. It is understood that during the last fiscal year the Atchison Company expended considerably more than \$2,000,000 of its not earnings in improving its facilities, and charged the same to operating account. Had this not been done, the company could have paid the full 4 wcent, upon the adjustment bonds and still show a surplus. Although only two months of the present fiscal year have passed, the earnings and prospects of the company warrant the assumption that the full interest upon the adjustment bonds will be paid next fall, and s handsome surplus shown after making that payment. The traffic returns for August which have come to hand indicate an increase in gross earnings as compared with last year of about \$500,000, of which it is reasonable to suppose fully one-half will appear in the net earnings The net advance of 24 points in Illinois Cen

tral, which was recorded in spite of a reaction of nearly a point from the highest price, was accompanied by rumors that are doubtless well grounded that the gross earnings of the company for August will show a larger increase than was reported to-day by the New York Cen-1810 D&Hud.119 1204 119 1184 1194 200 D.L& W1594 1594 1594 1594 1594 1694 tral Company for the same month. The de-tailed statement of the company for July, now due, will, according to trustworthy informa-tion, show a large increase in net earnings. The traffic returns that have come to hand during the last thirty days foreshadow earnings during the present and two or three succeeding months that will be limited simply by the carrying facilities of the railroads. If representative systems like the New York Central, Illinois Central, Rock Island and Atchison have earned from \$400,000 to \$500,000 gross more during August than they did during the same month last year, and before the crop movement and the resultant return traffic are well under way, it may safely be assumed that the re-turns for the remainder of the calendar year will be simply stupendous. Moreover, as the physical condition of the railroads was never better than to-day, and their equipments and

methods of handling business much superior to what they were two years ago. It may also be assumed that net earnings will be proportionately as large as the gross receipts. As to rates, no anxiety need be felt regarding them as long as the capacity of practically every railroad is taxed to its utmost. On this point it may be noted that rates are particularly well maintained in the South.

The Street was not without its disappointment to-day. Many speculators apparently expected an increase in the dividend on American Sugar Refining common or the declaration of an extra dividend. As neither expectation was fulfilled the price down nearly 4 points from yesterday's closing. A rebound, however, reduced the net loss to 1's W cent. So far as the general speculation is concerned the disappointment regarding Sugar Refining was offset by the prevailing conviction that the St. Paul directors will declare an extra dividend of 1 9 cent. to morrow, St. Paul sold within 4 of 1 per cent. of par. The trading in it was unusually heavy and was exseeded only by that in Atchison preferred. The vellow fever scare, which was a factor in vesterday's market, died out, and in consequence the

The Pennsylvania, the Chicago, Milwaukoe and St. Paul, the kio Grande Western, and the Southern Pacific Railroad companies have arranged for a through passenger service from Pittsburg to San Francisco. This service is to an extent experimental, and is undertaken because of the success that has been attained by other lines in running similar through traina. Should the patronage of the new route warrant, the service will be extended to this city. The companies mentioned are already operating a freight line over the route indicated. It is understood that this arrangement will not affect the relations between the Rio Grande Western and the Oregon Short Line system.

Want the Straw Paper Trust Wound Up. An application was made to Vice-Chancello Pitney in Jersey City yesterday by Lawyer

Charles L. Corbin for an order directing William G. E. See, receiver of the Columbia Straw Paper Company, know as the straw paper trust, to company, know as the straw paper trust, to sell the company's assets, together with the equity of redemption. Mr. Corbin represents L. Solomon Marx and other stockholders and creditors who want the business of the company wound up and their claims settled. Congressman Warner opposed the application. The company owns fifteen mills in Illinois, Iowa, Kansas, Nebraeka, Ohio, and other States, and they are mortgaged for \$1,000,000. The Vice-Chancollor reserved decision.

Daniel G. Rollins Left No Will.

Daniel G. Rollins, former Surrogate, who died on Aug. 30, seems to have left no will. Search has been made among his office and house effects, but no will was found. Philip A. Rollins and Jordan J. Rollins, nephews of the forme Surrogate, obtained an order to search the safe sufrogate, obtained an order to scared the safe deposit vault of the deceased in the Mercantile Safe Deposit Company, and this was done yesterday, but without result.

Mr. Rolline was unmarried, and his nearest relatives were his four sisters—Frances Parks, Caroline E. Rollins, Sarah R. Shaw, and Mary P. Rollins, this brother, George F. Rollins, three nephews and five nieces. ephews and five nieces.
